

Southington Kindergarten Preparation 2019

Co-sponsored by
Southington Public Schools and
Southington Library & Museum

Kids who read succeed!

Dear Southington Parent,

Studies have shown that reading and library use are key factors in a child's intellectual development. Children who spend time reading have better vocabularies and learning skills than children who do not read. They are also more likely to enjoy the success and pleasure that comes from making reading a lifelong activity.

As the parent of a student entering kindergarten in August 2019, you can give your child the key that will unlock the door to successful learning - a library card. We invite you to bring your child to Southington Library to get his or her very own card.

To give your child an educational boost during the summer, included is a *Suggested Reading List for Children Entering Kindergarten*. We look forward to getting to know you and your child as you embark together on an adventure of lifetime learning.

Sincerely,

Steven Madancy
Assistant Superintendent
Curriculum & Instruction
