

Talk Early. Talk Often.

They are listening!

SAAC averaged data taken from 3,286 high school student surveys in our region during 2011-12.

The results showed that:

94%

reported that their parents would disapprove of them smoking cigarettes.

92%

reported that their parents would disapprove of them using marijuana.

84%

reported that their parents would disapprove of them drinking alcohol.

Keep sending that message to your kids that you believe it is wrong for them to use drugs or alcohol!
